
Pop sent the card the same time I sent the pansies.

239 FIRST CHURCH (CONG.), SPRINGFIELD, MASS.

All the family have sat up long enough to have their beds made, also a bit to eat. Ma and me have been down street and Monday too. M. started for Turners Falls this P.M. probably to be gone a couple of days. Painted the "wooden rocker" in the music room and silvered the round that support the back & it looks like a pipe organ. The parlor bed is one mass of flowers. will send some to morrow—

Have just watered all the flowers with my new 37c watering pot. Have just this minute had a shave. Have also washed my head & have combed with So. instead of No. the mosquitos & have gnawed the last bit of flesh off my bones.
